Walk-through: Huys with Piet Boon

Piet Boon introduces Interior Design to the model apartment for Huys, a historic loft building at 404 Park Avenue South in New York that is being converted into luxury condos by a team of Dutch talents, including landscape architect Piet Oudolf, developers Kroonenberg Groep, and construction firm Sciamé. Huys will be one of Boon's first U.S. residential buildings when the 58 units begin to open in June 2013.
